

## BIKE PATH ETIQUETTE

Multi-use path activity is growing and good bike etiquette is necessary for the safety of all users. Remember, you are responsible for your own safety. Practice proper bike path etiquette and enjoy your Zagster ride!

### SHOW RESPECT

Show respect and be aware of fellow cyclists, walkers, joggers, and everyone else that uses bike paths.

### NOT A TIME TRIAL

Keep your speed under control. Watch for cyclists and pedestrians approaching from smaller cross paths.

### RIDE LIKE A CAR

Ride on the right side. Pass on the left. Obey all traffic signals.

### VERBAL WARNING

Ring your Zagster bike bell and yell, "On your left!" when approaching other cyclists or pedestrians from behind. Slow down to ease past.

### INTERSECTIONS AND PEDESTRIANS

Be especially careful when crossing a roadway, intersection, or pathway. Bikes do not have the right-of-way to vehicles on the road you are crossing.

### DON'T STOP IN THE MIDDLE

Stopping in the middle of the path is dangerous. Pull over to the side when taking a break.

### BE PREPARED TO STOP

People, kids and dogs are unpredictable. Slow down and always be prepared to brake.

### WHEELS YIELD TO HEELS

Always yield to pedestrians no matter what the circumstances.

## HAND SIGNALS

Stay in your lane and before you swing out to pass on the left or hit your brakes to stop, use a hand signal and look behind you for oncoming bikes.

LEFT  
TURN

RIGHT
