

Safety Enhancements

Project Overview

We continuously work to improve the safety and functionality of the Town Center Community. This is apparent in many of the smaller projects we work on every year. We partner with County or State Departments of Transportation for some of these projects to accomplish these goals. The following are a few examples of safety enhancements we have provided for the community.

Intersection Improvements

- Dual left turn lanes from Chastain Meadows to Barrett Parkway eastbound
- Traffic signal upgrades and decorative poles and bases at I-75 and Barrett Parkway interchanges
- Traffic signal upgrades, decorative poles and bases, and striping at the Barrett Parkway and George Busbee intersection
- Traffic signal timing adjustments at Big Shanty Road and Barrett Lakes Boulevard
- ADA ramp upgrades along Barrett Parkway

Pedestrian and Vehicular Improvements

- Skip Spann Connector Bridge lighting
- Aviation Park parking lot lighting
- Bells Ferry Trailhead parking lot lighting
- South Barrett Reliever Phase 2 lighting at the roundabout and road realignment behind Dick's Sporting Goods
- Big Shanty Road lighting from George Busbee Parkway to Barrett Lakes Boulevard (to be installed in 2023)
- South Barrett Reliever Phase 3 lighting along bridge and road realignment over I-75 (to be installed in 2024)
- Renovation of stamped, colored concrete medians throughout the district
