

Bells Ferry Trailhead

What's Next?

Included in the 2016 SPLOST projects, Cobb County Department of Transportation added an eight-foot-wide sidewalk on the west side of Bells Ferry Road beginning at the trailhead and extending north toward Big Shanty Road.

Project Overview

The Bells Ferry Trailhead is the district's easternmost point of the Noonday Creek Trail. In 2017, we updated the area to provide trail-friendly amenities such as a restroom, parking lot, trash receptacles, bike rental station, benches, lighting, landscaping and water fountains for people and pets. In October 2019, we extended the concrete pad at the bikeshare station to create room for potential additions.

The goal of this project was to provide needed amenities for trail visitors. These improvements have created a comfortable and safe starting point for any trail journey.

The trailhead has been noted as an ideal parking area for those getting started on the scenic seven-mile Noonday Creek Trail. The trail is located within the Town Center CID and is a part of the Cobb County Parks Division.

Highlights

- Access point to the Noonday Creek Trail
- 50-space parking lot
- Restroom facility with drinking fountain
- Bikeshare station
